THE GIFT THAT KEEPS ON GIVING

skywardscribe.com

THE STORY

The seed of inspiration for these seed cards was born right where every seed ought to be born—in the garden. As both a professional artist and a Minnesota Master Gardener in-training, I wanted to find a way to share beauty while caring for this planet that I love so much.

Every plantable seed card helps to actively heal the planet by supporting pollinators, sequestering carbon, reducing waste, purifying the air, feeding bodies, building relationships, and uplifting hearts.

With each card, we're not just sharing words – we're cultivating a better, kinder world, one heartfelt message and one blooming seed at a time.
